Cross

HDPE Cross – Prime Quality for Multi-Directional Pipe Connections

The Prime HDPE Cross is an essential fitting designed to create secure four-way connections in HDPE piping systems. Crafted from high-quality High-Density Polyethylene (HDPE), this cross is available in a size range from 20mm to 1200mm and multiple Standard Dimension Ratios (SDR), including SDR17, SDR11, SDR9, and SDR7.4, to meet diverse pressure and application requirements. Engineered for durability and precision, the HDPE Cross ensures efficient flow and strong performance in various applications, including water supply, gas distribution, and industrial processes. Trust Prime for reliable piping components that provide flexibility and performance for all your system needs.
